Boost Soil Health with Cover Crops

Learn how diverse cover crop mixes can boost your soil health from Ohio Farmer Dave Brandt and Natural Resources Conservation Service Conservation Agronomist Ray Archuleta. Topics include designing cover crop mixes, cover crop management systems, soil function demonstrations, and field demonstrations. The **FREE** one-day seminar runs from 9 a.m. until 3:30 p.m.. Lunch is on your own as well as transportation to the field demonstrations. For more information call Iowa NRCS State Soil Scientist Rick Bednarek at 515-284-4135. To learn more about cover crops go to www.ia.nrcs.usda.gov.

June 4: Denison, Boulder Convention Center

June 5: Ames, Scheman Building (ISU)

June 6: Cedar Rapids, Coe College
